PROFESSIONAL SUMMARY

Full-Stack PHP Developer with **6+ years** building and maintaining high-traffic applications across enterprise and e-commerce clients — including **SBI Home Loans**, **Vodafone Qatar**, and **Tresemme India**. Core stack: **PHP (Laravel, CodeIgniter)**, **Object-Oriented Programming (OOP)**, **MVC architecture**, **RESTful APIs**, **Shopify/Liquid**, and **MySQL, PostgreSQL, MongoDB, Oracle DB**, with production experience on AWS and Oracle WebCenter Sites.

Comfortable across the full stack — from **React.js/JavaScript** UI development to backend architecture and security hardening (XSS/CSRF/SQL Injection prevention). Independently designed and shipped products end-to-end, delivering measurable outcomes: 40% engagement gains, 25% retention lift, 20% faster deployments, 50% faster reporting workflows, and 80% reduction in manual processing.

TECHNICAL SKILLS

Languages: PHP (OOP, Core PHP), JavaScript (ES6+), TypeScript, SQL, Python

Backend: Laravel, CodeIgniter 3, REST API Design, MVC Architecture, Design Patterns, SOLID Principles

Frontend: React.js, HTML5, CSS3, jQuery, Bootstrap, Responsive Web Design

Databases: MySQL, PostgreSQL, MongoDB, Oracle DB, AWS DynamoDB

eCommerce & CMS: Shopify (Liquid, Admin & Storefront API), Magento, OpenCart, Oracle WebCenter Sites (WCS)

Security: XSS / CSRF / SQL Injection Prevention, Secure Auth Patterns, REST API Validation & Error Handling

Cloud & DevOps: AWS (DynamoDB — production; EC2, S3, RDS — hands-on), Docker, Jenkins, CI/CD, Git, GitHub, GitLab, Composer, Postman

Workflows: Agile/Scrum, Sprint-based Delivery, Jira, Trello, Code Reviews, Cross-functional Collaboration

Data & Reporting: MS Excel (Advanced — pivot tables, VLOOKUP, macros)

AI Tools: ChatGPT, Claude — prompt-assisted development

Currently Learning: Node.js, Express.js, Next.js — applying them in a full-stack project

WORK EXPERIENCE

Software Developer | Tech Mahindra Ltd. • Navi Mumbai

Oct 2024 – Apr 2026

Project 1: SBI Home Loans — Banking Platform

- Maintained and optimized a mission-critical financial platform serving thousands of banking customers daily, building modular PHP (CodeIgniter 3) modules with Oracle DB integration while applying OOP principles, MVC architecture, and clean-code practices.
- Resolved code-quality, security, and compliance findings surfaced through internal audit reviews, helping the platform meet regulatory standards required for government banking systems.
- Delivered UI enhancements without compromising the integrity of existing production code, using HTML, CSS, JavaScript, and PHP.
- Diagnosed and resolved production issues — including query performance bottlenecks and application errors — to maintain uninterrupted platform stability.

Project 2: Vodafone Qatar — Enterprise Telecom Platform

- Contributed to Vodafone Qatar's enterprise telecom platform on Oracle WebCenter Sites (WCS) as part of the Content Authoring team, supporting an international customer base.

- Engineered responsive frontend components in HTML/CSS within the Oracle WCS environment, tailored for a multi-market, international audience.
- Designed and integrated RESTful APIs with multiple third-party services, implementing robust request/response validation and structured error handling for reliable, uninterrupted data exchange.
- Managed end-to-end content management and publishing workflows, maintaining accuracy and consistency across a high-visibility, customer-facing enterprise platform.
- Delivered within Agile/Scrum sprints alongside distributed, cross-functional teams, using GitLab for version control and peer code reviews to uphold code quality standards.

Software Developer | Cloud Converge Pvt. Ltd. • Noida

Sept 2023 – May 2024

- Built visually engaging, interactive web pages and applications using HTML, CSS, JavaScript, Shopify, and PHP, driving a **40%** increase in user engagement and a **25%** reduction in bounce rate.
- Integrated third-party services and APIs into web applications, expanding platform functionality by **25%**.
- Resolved **90%** of reported issues through effective debugging and troubleshooting, improving overall user satisfaction.
- Streamlined development workflows using Docker, Jenkins, GitLab, and Agile methodology, cutting deployment time by **20%**.

Software Developer | Unnatiagri Pvt. Ltd. • Noida

Dec 2022 – Jul 2023

- Collaborated within a 12-person cross-functional team (7 web developers, 4 app developers, 1 tester) to build and launch a live agritech e-commerce platform on OpenCart, serving farmers across India.
- Developed custom web pages using HTML, CSS, and JavaScript, contributing to a **20%** increase in user engagement on the live platform.
- Engineered backend modules using PHP, CodeIgniter, Laravel, and MongoDB on the OpenCart platform, improving data processing efficiency by **30%**.
- Built dynamic sales charts and reporting dashboards, improving data-driven decision-making by **40%** for business stakeholders.

Jr. Software Developer | Vamani Overseas Pvt. Ltd. • Faridabad

May 2022 – Dec 2022

- Designed and developed an Address Updater API to automate export/import data management, eliminating **80%** of manual processing time and significantly reducing human error.
- Built a Laravel-based Report Generator that automated business reporting workflows, cutting manual reporting time by **50%** and enabling faster decision-making for management.
- Integrated the admin API with the Laravel framework to enhance backend functionality and ensure seamless, real-time data exchange across the system.
- Built the Shopify-based rewards and points system for [Justwines UK](#), a UK wine eCommerce client (full build detailed under Key Projects).
- Delivered all of the above within a lean team of 2–3 developers, demonstrating strong ownership and independent delivery.

Associate Software Engineer | ENS Enterprises • Noida

Feb 2020 – Apr 2022

- Delivered **11+** client projects spanning CodeIgniter (3), Core PHP (4), Shopify (3), and Laravel (1).
- Built ENS Medicos, a full internal pharmacy management platform, using HTML, CSS, JavaScript, PHP, CodeIgniter, and MySQL, improving operational efficiency by **30%**.
- Augmented client websites with new features and functionality, contributing to a **20%** increase in user engagement across multiple projects.
- Diagnosed and resolved **90%** of reported technical errors, ensuring smooth operation and optimal performance across all maintained platforms.
- Built the [Kitchen Cabinet Kings](#) Magento storefront clone (full build detailed under Key Projects).

KEY PROJECTS

Client / Production Work

- [Justwines UK](#) | *Shopify Liquid* | *Laravel* | *React.js* | *Admin & Storefront API* — Full-stack rewards & points system combining a Laravel backend with a React-based interface for a UK wine eCommerce client, driving a **25%** increase in customer retention and a **15%** rise in repeat purchases.
- [Tresemme India](#) | *Shopify Liquid* | *HTML* | *CSS* | *JS* — Responsive eCommerce storefront for a global personal-care brand, contributing to a **20%** increase in online sales.
- [ENS Medicos](#) | *CodeIgniter* | *PHP* | *MySQL* | *REST API* — Internal pharmacy management platform; streamlined inventory and billing workflows via REST APIs, improving operational efficiency by **30%**.
- [Kitchen Cabinet Kings Clone](#) | *Magento* | *PHP* | *MySQL* — Magento-based eCommerce storefront clone built directly on Magento's catalog, cart, and checkout structure.

Independently Designed and Built

- [Fares Hunt](#) | *Laravel* | *React.js* | *Skyscanner API* | *MySQL* — Personal project: a flight-fare search platform with a React frontend and Skyscanner API integration, paired with a custom Laravel CRM for lead and booking management.
- [Insuredge](#) | *PHP* | *Custom MVC* | *Chart.js* | *HTML* | *CSS* | *JS* — Insurance policy management CRM with analytics dashboards, KPI cards, lead pipeline, and appointment management, built with production-grade security hardening (XSS, CSRF, SQL Injection prevention).
- [UrEnglishCoach](#) | *Laravel* | *PHP* | *HTML* | *CSS* | *JS* — AI-assisted English education platform with an automated answer-assessment engine that cross-references student responses against sample answers and returns error corrections.

Additional Projects

[Navestix Shipping Lines](#) (PHP), [ChefBoss](#) (Shopify), [Indulekha](#) (Shopify), [ENS CRM](#) (CodeIgniter), [Lecturedekho](#) (Laravel), [eVision Mall](#) (PHP), [School Management System](#) (CodeIgniter), [Hospital Management & Patient Portal](#) (CodeIgniter).

EDUCATION

B.Tech in Computer Science & Engineering

B.I.T. Gida, Gorakhpur — AKTU, Uttar Pradesh, India

July 2018

TRAINING & PROFESSIONAL DEVELOPMENT

- Summer Internship Training in PHP — Softpro India Pvt. Ltd., Lucknow
- Oracle WebCenter Sites (WCS) — Enterprise CMS hands-on production experience via the Vodafone Qatar project at Tech Mahindra
